

uRBaN Route

A route to linger on

The URBAN ROUTE presents a group of micro-stories that let us enjoy an original itinerary through Ledesma.

This is a circular, well sign-posted route, easy to follow and full of suggestions, which can be started at any point.

The heart of the route is **LeDeSMA**, the Interpretation Centre of the History of Ledesma. This place, located in the middle of the route inside the church of San Miguel, tells us all about the ups and downs that the town has gone through.

LeDeSMA
